## Safety

1) To prevent possible hearing damage, do not listen at high volume levels for long periods.
2) Risk of explosion if battery is replaced by an incorrect type, dispose of battery according to the instruction.
3) Recycle your products. The WEEE logo appears on the product to indicate that this product must not be disposed of or dumped with your other household wastes. You are liable to dispose of all your electronic or electrical waste equipment by transporting to an appropriate collection point for recycling of such hazardous waste.
4) FCC Radiation Exposure Statement: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
5) IC Warning: This device complies with Industry Canada license-exempt RSS standards. Operation is subject to the following two conditions: 1. This device may not cause interference, and 2. This device must accept any interference including interference that may cause undesired operation of the device.
6) IC Radiation Exposure Statement: This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.
7) FCC Notice: This device complies with Part 15 of FCC rules. Operation is subject to the following 2 conditions: 1. This device may not cause harmful interference, and 2. This device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## Warranty

Porta Phone items are warranted against defects in material and/or factory workmanship for a set period from the date of purchase. Standard repairs due to misuse or wear and tear, as well as replacement parts including but not limited to batteries, padding, USB cable, etc. are excluded. Shipping to Porta Phone is at customer's expense, Porta Phone will pay for return ground shipping if the product warranty applies to the repair. Call for details.

**Shipping**

Prior to returning your headset for warranty or service you must call Porta Phone for an RA (return authorization) number: 1.800.233.1113.

**General Service**

All repair work will be performed for the cost of replacement parts and return shipping from the Porta Phone factory.

PORTA PHONE

# DBx Wireless

## Conference Module

## Instruction Manual

PORTA PHONE

## IMPORTANT

**The MAIN DBx Headset must be turned "ON" to link the corresponding REMOTE headsets & Conference Module.**

## Battery

**The Conference Module and all DBx headsets are powered by a Lithiun battery that will operate 6 hours when fully charged.**

Headset Battery Charger

Conference Module Battery Charger

**Charging**

1. Batteries are charged via multi-charger.
2. Insert the batteries making sure the contacts are properly aligned.
3. RED: Charging; GREEN: Fully Charged.

**Installation**

1. The Module: Slide battery compartment open, insert battery, click closed.
2. Headsets: Press Battery Door Button to open & close compartment.
3. Turn Module on/off dial to the ON position.

**Low Indicator**

A repetitive beep (every 20 seconds) indicates low power – battery should be charged or replaced. to turn off.

**Battery Care**

*To preserve optimum charge level remove battery from headsets when not in use.*

## System Operation

**System Startup**

1. Power ON the MAIN Headset, then REMOTE Headsets by pressing the power button located above the volume controls. A flashing blue LED on the earcup confirms the headset is in search mode. Flashing LEDs change to solid blue to indicate that headsets have successfully connected.
2. Power ON Conference Module by rotating the ON/OFF/Volume dial clockwise. LED confirms power is on.

*Note: Each time the conference module is turned on, the default setting will be Dual Channel Off/Def, 900 MHz.*

Headset On/Off & Volume Controls

Conference Module ON/OFF/Volume Dial

**Set Volume**

DBx headsets feature 5 volume settings. Select the desired volume by slowly clicking the up or down buttons. An audible tone reflects volume level.

Separate / Combine Switch

**Select Conference Mode**

Each time The Conference Module is turned on the default setting will be dual channel Off/Def, 900 MHz. Pressing the green conference button connects the channels to link all headsets (LED turns red).

**Select Frequency**

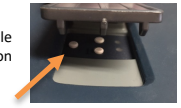
Select 900 mHz or 2.4G. All headsets and the Conference Module should be on the same frequency.

Headset Frequency Selection

**Shut Down**

Rotate The Module on/off/vol dial until it clicks off. Press and hold power button on the DBx headsets for 4-5 seconds to turn off.

Module Frequency Selection



*To preserve optimum charge level remove battery from headsets when not in use.*
